

Feel it (I See you)© 2006 Big Sound Music, Inc.

Words/Lyrics/Music Kathyjo Varco Oct. 2005

Full of poison by the best man has to give  
We're turned around  
And all the masterminds of glory, proud of what they did  
Gonna fall down

And where to now?  
-When you're already home  
I see you breaking down  
I see you breaking down

Chorus:  
(See it) It's alright  
(Feel it) honey child  
Do you know what it means?  
We wander 'round broken-hearted  
(Broken hearted people don't cry)  
But GOD knows everything  
And He said, wait until the sun goes down  
When everything is "come around"

Raging victims in the circumstance of what this is  
Madness  
But I find comfort in the thought that there's still love to give  
To go around

And where to now?  
-When there's no place to run

I see you breaking down  
I see you breaking down

Chorus:

(See it) It's alright  
(Feel it) honey child  
Do you know what it means?  
We wander 'round broken-hearted  
(Broken hearted people don't cry)  
But GOD knows everything  
And He said, wait until the sun comes out  
All of this is coming down

And where to now?  
And where to now?

Full of poison by the best man has to give  
(And where to now)  
I see you breaking down but find a way to love  
(And where to now)

It's alright (See it)  
It's Ok (Feel it) honey child  
Do you know what it means?  
We wander 'round broken-hearted  
(Broken-hearted people don't cry)  
But GOD knows  
God know every little thing  
It's alright (See it)  
It's Ok (Feel it)  
I know it's slow but don't give your broken heart away

(See it) Inside

(Feel it) I know

Do you know what all of this craziness is?

Wait until the sun comes up

Lots of love to go around
